MESSAGE FROM OUR FOUNDER

As this year comes to an end, we look back and marvel at the amazing difference we have made in the lives of so many children. Thanks to your advocacy, volunteer work, and donations, over 500 children received the improved quality of care, education, and sense of belonging that every child seeks and deserves.

Imagine being the director of an orphanage and having the responsibility to feed, clothe and provide for 50 to 100 children without knowing from where the funds or support will come. Unfortunately, that is the dilemma of all of the orphanages in Mexico, as there aren’t any government funds to support children and families in need. Through our core program, SUSTAIN, we ensure that every orphanage in our network has the certainty of monthly support for their most pressing needs. Thanks to the support of our monthly sponsors - Our Heart Angels and Mission Partners, we were able to continue to cover the orphanages’ basic needs this year.

Once the basic needs are covered, our next step is to work to IMPROVE the quality of life for the children through the implementation of special projects that are often carried out with the help of our amazing partners.

Supporting life sustaining needs and improving quality of life for the children through the time they reach adulthood is critical, however, we know that unless these young adults are prepared to be self-sufficient, we have done very little to actually end the cycle of poverty and abandonment. That is why our EDUCATION program is an important pillar of our support to the orphanages. This year we provided funds and support for uniforms, backpacks, supplies and transportation for primary and secondary level students at the orphanages and we also provided scholarships to 40+ teens/young adults that aged out of the orphanage system to continue their education in technical schools and universities.

By the end of this year, seven students will graduate from college, bringing our total graduates to twelve. That is 12 young adults whose lives will forever be changed because you cared enough to help!

Together we are giving orphaned and abandoned children an opportunity for a life of purpose and possibility. Thank you for your partnership in this work!

15 WAYS TO GIVE
OUR MISSION
We are on a mission to break the vicious cycle of poverty from perpetuating child abandonment.

OUR BELIEF
We believe that every child’s life is valued and holds the same potential, excitement and opportunity as any other life. It is up to us to work together to make sure our care transforms into each child’s hope for the future.
150 MILLION
children are abandoned and living on the streets worldwide

6,000+ CHILDREN
live on the streets or under dangerous or abusive situations, and thousands more live in extreme poverty in Baja California, Mexico

NO FOSTER CARE OR WELFARE SYSTEM
Mexico currently does not have the social programs that we have in the U.S. The only way to care and support children in need is through a network of private orphanages, funded entirely through donations.

WHO WE ARE
Corazon de Vida (CDV) is a US for purpose organization founded in 1994, providing life-changing support for orphaned and abandoned children in Baja, Mexico by funding local orphanages, providing quality of life improvement services and investing in the children’s future by funding higher education.
How do we break the vicious cycle of poverty from perpetuating child abandonment?

By funding orphanages that provide life-saving services and a nurturing environment for abandoned children. Funding projects that increase the quality of life for the children. Funding education and providing opportunities for a life of purpose and possibility!

**Sustain**

This program’s focus is on sustaining life. We provide regular monthly funding to each orphanage to cover food, shelter, water and utilities. Funds are transferred monthly through a debit-card system connected to our bank account in the U.S. This system ensures accountability and helps us in responding quickly to specific needs.

**Improve**

We partner with individuals, groups, clubs, churches and organizations to provide project based funding to improve the children’s quality of life. Projects include construction, facilities improvements and repairs, as well as support to improve the overall wellbeing of the children such as medical, dental and psychological needs.

**Educate**

Support for primary and secondary education includes funding for uniforms, backpacks, transportation costs and graduation costs. Our continuing education program provides scholarship based funding for teens aging out of the orphanage system and it includes funding for inscriptions, tuitions, housing, living expenses and transportation.
"It is easier to build stronger children, than to repair broken men."

ACCOMPLISHMENTS

A New Dorm and Therapy Services for Rancho de los Niños Special Needs Residents

This project is being supported with the help of many partners, donors and volunteers. A group of 11 special needs residents were placed at the orphanage temporarily while the government looked for other options. Late last year the orphanage’s director was told that the government could not find another place for them, so they would stay at Rancho de Los Niños permanently.

The special needs residents have a variety of mental disorders and quite a few of them are non-verbal. During the last quarter of 2016 and first quarter of 2017 we rehabilitated their living space by completely remodeling all of the bedrooms and living room, and repairing the roof and windows. We next focused on increasing the quality of life for the residents by providing speech, behavioral and occupational therapy services and ensuring that their medical needs are covered.

We now cover the services of a psychiatrist who visits them weekly and monitors their medical needs as well as a full time onsite psychologist who tailors specific programs for each of them that focuses on behavior, speech, and occupational therapy.

CHANGING THE ODDS FOR OUR KIDS:
Continuing education for kids aging out of the CDV supported orphanages

Supporting life sustaining needs and improving quality of life for the children through the time they reach adulthood is critical, however, we know that unless these young adults are prepared to be self-sufficient, we have done very little to actually end the cycle of poverty and abandonment. That is why our EDUCATION program is an important pillar of our support to the orphanages.

This year we provided funds and support for uniforms, backpacks, supplies and transportation for primary and secondary level students at the orphanages and we also provided scholarships to 40+ teens/young adults that aged out of the orphanage system to continue their education in technical schools and universities. Every year, as some students graduate, others enter the program. We are proud to announce that we have had four additional college graduates, Antonio and Josue from Culinary School, Angie from Nursing and Magaly with a degree in Education Technology.

They each had to overcome so much to reach this milestone, however, the love and support of their Corazon de Vida Family carried them through the difficult times in their journey.

Antonio Luna
Culinary School
Antonio was a long time resident of Casa Hogar Sion and had always dreamt of becoming a chef and having his own restaurant one day. While living at the orphanage, he used to help out in the kitchen to prep over 300 meals each day for the 100+ residents of the home.
After high school, he entered culinary school in Tijuana where he graduated in 2017. Antonio has collaborated as an intern with many U.S. restaurants in Southern California and San Francisco, including two amazing internship opportunities with world-renowned restaurants with Michelin Star status!

Magaly Saldivar
Education Technology
Magaly, her mother and siblings arrived at an orphanage seeking refuge, fleeing from an abusive relationship with Magaly’s stepfather. When her mother returned to her husband, Magaly decided to stay at the orphanage.
Magaly focused on her schooling and on spending her time helping with homeschooling the kids that could not go to regular school. It was there that she discovered her passion for teaching and developing learning materials because she could immediately see the difference she could make in the children’s lives. Magaly plans to use her degree to help equip more teachers with the latest education technology.

Josue Duarte
Culinary School
Josue has lived at a Corazon de Vida supported orphanage most of his life. As a young teen, he started working at a restaurant and quickly realized he enjoyed working in the kitchen and creating dishes. His employer at the time encouraged him to enter culinary school. Once Josue started school, his Corazon de Vida family stepped in to help with tuition and expenses, and Josue continued working to cover his personal expenses while also attending school.
Josue graduated from culinary school in September 2017 and is currently completing his service hours and preparing for his professional internship.

Angelica Aquino
Nursing School
Since the day she was born, Angelica was expected to live the quintessential Zapoteca (Oaxacan) housewife life, marrying young, caring for children and never obtaining an education. Angelica strived for something greater, and as a teenager left her home, arriving to Pequeños Hermanos orphanage in hopes of acquiring a scholarship and a better life.
Breaking free of the cycle, Angelica attended nursing school in hopes of a career in the field. Persevering through some difficult and challenging times, Angelica was able to graduate in 2017. She knew her life was meant for greater things. Angelica is starting her one-year service at Valle de Guadalupe, giving back to the community that helped her achieve her dreams.

THE ODDS
worldwide stats

Statistics show that each day, 38,493 orphans age out of the system by age 18 worldwide.

Studies show that 60% of the girls become prostitutes and 70% of the boys become hardened criminals.

Another study that tracked 15,000 orphans who had aged out of state-run institutions and found that:
- 10% committed suicide
- 5,000 were unemployed
- 6,000 were homeless
- 3,000 were in prison within 3 years
